

Hispanic Family's Needs in the Hearing Aid Management Study

Purpose: we want to know what you need to manage your child's hearing aids.

We are looking for HISPANIC PARENTS with children with hearing loss to participate in our study.

You may qualify if you are a Hispanic Family with:

- Children 0-5 years old
- Bilateral hearing loss
- Have hearing aids
- Speak Spanish – The surveys are in Spanish and IRB approved.

What you need to do?

- Fill out 3 anonymous questionnaires (do not need to include personal identity information)
 - 20 minutes of your time.
- Following completion of data collection:
 - You will receive \$5.00 for your time.
- Return completed forms in the postage paid envelope.

Please return by July 31st, 2015

Information will be used to help audiologists better understand Hispanic Parents' experiences and needs.

Thank you!

For additional information AND if you want to participate, email us to see if you qualify and we will send you the package directly to you:
