

# Therapy After Cochlear Implants Using Telemedicine

T•A•C•I•T

## Does your child have a cochlear implant?

The University of Colorado Denver  
is looking for children  
**aged 6 months-6 years**  
who were implanted with cochlear  
implant(s) before age 3½.

Your involvement includes participation in  
speech and language therapy in person and  
via the internet. Speech, language, and  
listening tests will be administered  
periodically during the study.

Compensation will be provided for  
testing appointments.

For further information, contact  
these T•A•C•I•T team members:  
Arlene Stredler Brown, PhD, CCC-SLP  
**303.818.1258,**  
**arlene.brown@colorado.edu;**  
Jamie Cavanaugh, MA  
**303.556.5804, tacit@ucdenver.edu;**  
Or visit the study's website:
