RELATED VOLUNTEER ACTIVITIES

English Language Tutor for two at-risk first graders. Assistant to 96-year-old legally blind woman. Aide at the United Methodist Preschool working with fifteen to twenty pre-school children. Mentor to teenage mothers through the Community Outreach Program (Parent Share) in Oregon, Wisconsin. Also made presentations to this group on hearing and communication abilities of infants and how to access birth-to-3-related services.

Volunteer for 2001 WSHA Convention Planning Committee. Moderated Convention sessions in 2002-2005.

LEADERSHIP SKILLS

I am a hard working person with excellent time management and organization skills. I have well-developed interpersonal skills and work extremely well with audiologists and other health care professionals as well as families of deaf and hard-of-hearing children. I thrive on working with people, have strong interests in leadership and academic development and a desire to continue to learn about effective strategies to strengthen the field of audiology. I have held leadership positions, have demonstrated my proficiency in problem solving and pride myself in proactively addressing challenges. I enjoy making system changes through collaborative communities of practice.

COMPUTER AND TECHNOLOGY SKILLS

Skilled in Microsoft Word, Excel, Real Presenter, Media Streaming, Power Point, Video Wave, Distance Learning technology such as WebCT and Video Conferencing, Photo Shop, digital photography and web database programs such as WE-TRAC.

Guide By Your Side Training. Green Lake Conference Center. February 13- 14, 2004 Also Organized quarterly case conferences.

1st, 2nd and 3rd Annual Statewide Parent Conference

PUBLICATIONS

Wisconsin's Birth to 3 Program: What Is It, How Is It Funded, and How Does It Affect You?" for the Winter 2002 edition of the *Communication Connection* (WSHA quarterly newsletter).

EHDI Newsletter. Major contributor since December 2000. Coordinator for quarterly publication with a circulation of 3,800. Increased circulation to include family practice providers and audiologists.

EHDI post-diagnostic workgroup to create a series of publications. Served on committee which published: **Babies and Hearing Loss Guide for Families about Follow-up Medical Care** (English & Spanish versions), **Babies and Hearing Loss Guide for Providers**. Wrote text, oversaw design phase, provided photography. Introduced and distributed publications to a statewide network of audiologists.

Featured in and contributed articles to *PeriScope*, the WAPC quarterly newsletter.

Authored **Newborn Hearing Screening Fact Sheet** for distribution by midwives to educate Amish and Mennonite families about the Newborn Hearing Screening procedure.

Authored **The Wisconsin Sound Beginning Program Update** for *Maternal and Child Health and Children with Special Health Care Needs* Update 2001 (quarterly publication).

Was instrumental in writing the following WE-TRAC data system legal documents; User Security Agreement, User Security and Confidentiality Policy, Important Information for Parents, Parent Consent and Authorization Form. November 2002.

Re-designed and updated the **Sound Beginning for Your Baby** brochure in English and Spanish. February 2002.

Convened and chaired a committee to design, write, print and distribute the **Babies and Hearing Loss: An Interactive Notebook for Families with a Young Child who is Deaf or Hard of Hearing**. February 10, 2003.

GRANTS / FUNDRAISING / AWARDS

Assisted in writing grant applications for continuation of the Wisconsin Sound Beginnings Grant, which is funded through the federal Maternal Child Health Bureau (MCHB). Wrote a new application for funding and was awarded the 3 year grant in April 2005.

Assisted in writing grant application for funding from the Centers for Disease Control and Prevention (CDC) to develop and implement a statewide early hearing detection and intervention data, tracking, and surveillance system to include the integration of the system with other newborn screening programs.

Raised approximately \$25,000 for the Home Birth Initiative from Sertoma Clubs of Madison and Middleton, Madison Downtown Rotary, Beltline and Sauk Trails Optimists Clubs, and the Perinatal Foundation to advance UNHS (universal newborn hearing screening) to babies born at home.

Assisted Perinatal Foundation in determining criteria and grant application process and requirements to effect a \$40,000 matching grant program targeting small community hospitals with less than 300 births a year that have not yet begun a hearing screening program. Funded seven hospitals for a total of \$40,000. Set application criteria, wrote application, and screened applicants.

Selected as **WSHA Outstanding Service Award Recipient** February 2003. Nominated for WSHA Audiologist of the Year 2005.
