Technical Assistance provided by Hands & Voices Headquarters/FL3 Center

The Hands & Voices Family Leadership in Language and Learning (FL3) Center Technical Assistance (TA) model* is designed to respond to the needs of family-based support organizations, including Hands & Voices (H&V) Chapters/Programs, EHDI Program recipients, and family leaders in meeting their family engagement, leadership, and family support program objectives. TA will be provided by Area Technical Assistance Advisors (TAA) as noted on the map below.

- **Basic TA** creates, provides, and promotes access to resources about the innovation desired, is typically episodic and shorter-term in nature and seeks changes in attitude.
- **Blended TA** is a combination of both where understanding and commitment to change is understood but needs to build further depth to accomplish change.
- **Intensive TA** includes work in systems change and capacity building that requires clarity related to agreement about changes; frequent communication; intensity; integrity; accountability; and duration.

**Request FL3 Online TA here:** [https://handsandvoices.org/fl3/request-ta.html](https://handsandvoices.org/fl3/request-ta.html)
