Parent Tip Sheet

Early Literacy Development

Literacy is the ability to read and write. You can help your child develop the skills he or she needs for later reading when reading storybooks, interacting with print, and associating sounds/fingerspelling in his or her environment. Building these skills early will help your child start school ready to learn to read!

Share books as early and as often as you can.

Tell stories and invite your child to tell you stories.
Example: “What happened at school today?” Start with a shared experience to help develop storytelling.

Point out signs, e.g., McDonald’s. Play games identifying the signs that you see. This is really early reading!

In your community, look for signs that are familiar to your child. Point out the letters and words you see on the signs.

Associate sounds/fingerspelling with letters as early as possible.

Label everything in your home with words, pictures and/or signs.

Play games with words starting or ending with a certain sound or fingerspelled letter.

Sing songs and teach nursery rhymes to your child.

Look at your child while reading, make sure the child sees the signing, the words and the pictures.

Play games where you connect a picture/visual with a word.

"Share these with your Early Intervention providers/parent to parent support providers who have experience with children who are deaf or hard of hearing and discuss ideas on how to implement these tips with your child. https://handsandvoices.org/fl3/topics/tipsheets.html"
