

Foundations for Making Choices: Getting to Success

This event is designed for parents of children who are deaf or hard of hearing. From making choices about communication methodologies, to school placement issues and beyond, families need to learn the tools for good decision-making strategies. Hear from parents who have been through it all, as well as a mental health professional who can give you good advice about how to make informed choices to help your child become a healthy and happy communicator in his/her world! Displays by service providers and written information about communication methods, funding resources, school and social issues will be available.

Childcare, Sign Language Interpreters, and Language translators available by request (please indicate your needs on sign-up sheet.)
